

MADEIRA

Lâmina de madeira natural EW (European Wood)

Lâmina de madeira natural importada da Europa, com certificação FSC, obtida através de tecnologia ecologicamente correta, que preserva as florestas e o meio ambiente. Recebe acabamento de verniz fosco de proteção.

WOOD

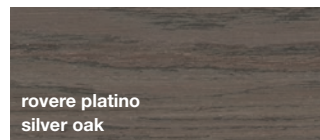

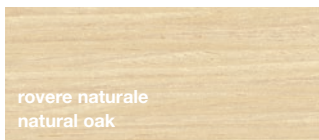

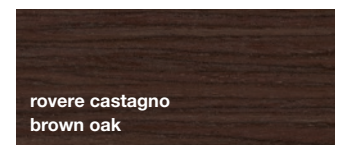

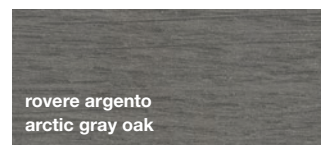

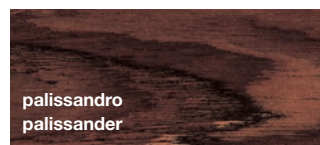

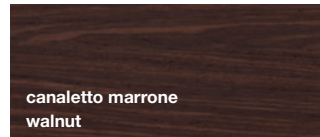

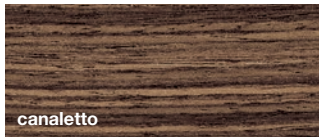

EW natural wood veneer (European Wood)

Imported from Europe, this FSC certified wood veneer is extracted from renewable forests through ecologically correct processes. Available in matte finish.

MADERA

Lámina de madera natural EW (European Wood)

Lámina de madera natural importada de Europa, con certificación FSC, obtenida a través de tecnología ecológicamente correcta, que preserva los bosques y el medio ambiente. Recibe terminación de barniz opaco de protección.

MADEIRA HIGH GLOSS

Lâmina de madeira natural EW (European Wood)

Lâmina de madeira natural importada da Europa, com certificação FSC, obtida através de tecnologia ecologicamente correta, que preserva as florestas e o meio ambiente. Recebe acabamento de verniz brilhante, polido, de alto desempenho.

HIGH GLOSS WOOD

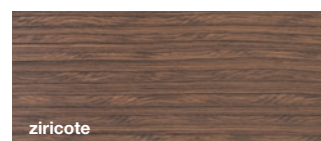

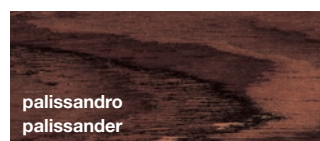

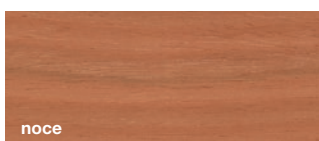

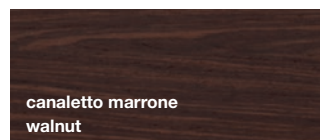

EW natural wood veneer (European Wood)

Imported from Europe, this FSC certified wood veneer is extracted from renewable forests through ecologically correct processes. Available in high gloss lacquer.

MADERA HIGH GLOSS

Lámina de madera natural EW (European Wood)

Lámina importada de Europa, con certificación FSC, obtenida a través de tecnología ecológicamente correcta, que preserva los bosques y el medio ambiente. Recibe terminación de barniz brillante, pulido, de alto desempeño.

MADEIRA Rovere Laccato

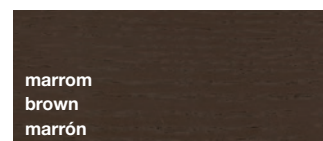

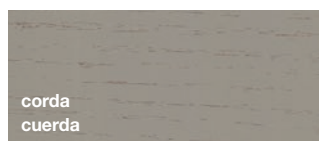

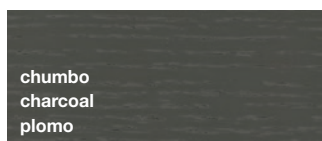

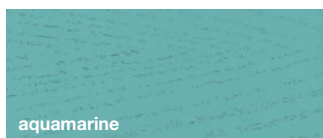

Lamina natural de carvalho americano extraída de florestas com manejo sustentável, com aplicação de pintura. Toda nobreza da madeira com veios e poros destacados.

WOOD Lacquered Oak

Natural oak wood veneer extracted from managed and sustainable forests. It is finished with a matte lacquer that enhances the wood grains, available in several colors.

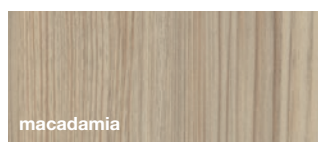

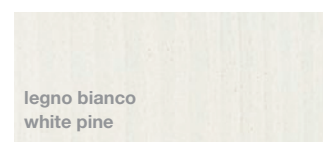

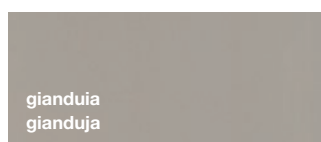

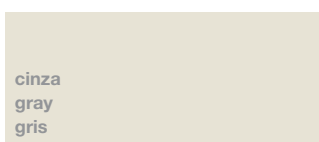

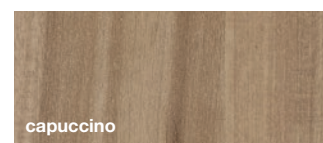

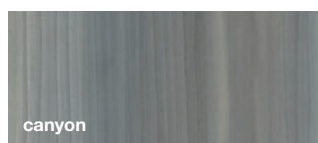

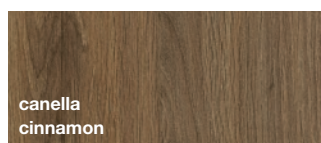

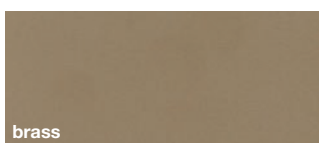

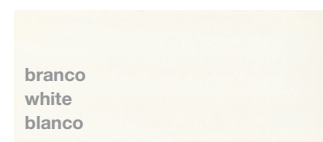

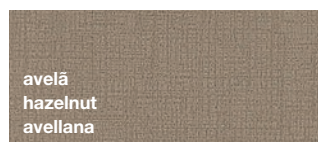

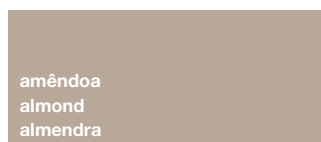

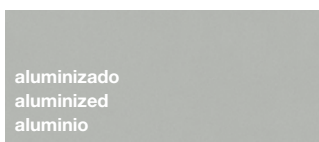

MADERA Rovere Laccato

Lamina natural de roble americano extraída de bosques con manejo sustentable, con aplicación de pintura. Toda nobleza de la madera con vetas y poros destacados.

LAMINADO DECORATIVO

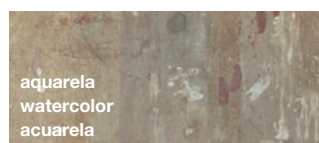

Panel de MDP revestido com placa de material celulósico impregnada com resinas termoestáveis e prensada por meio de calor e alta pressão. Dotado de proteção antibacteriana *Microban*.

LAMINADO DECORATIVO HIGH-END

Aquarela: produzido através de impressão digital, que permite a confecção de efeitos e desenhos únicos.

Preto: desenvolvido a partir de uma nova geração de resinas com nanotecnologia, sendo extremamente fosco e de toque acetinado. Permite fácil remoção de manchas de gordura, além de possuir maior resistência a riscos e abrasão que os laminados tradicionais.

HIGH-END DECORATIVE LAMINATE

Watercolor: created using digital printings, the result is unique effects and designs.

Black: made from a new generation of resins, it features a pure matte finish with a touch of satin. This allows for easier grease removal and it is much more resistant to abrasion and scratches than typical laminates.

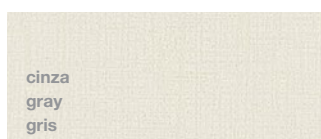

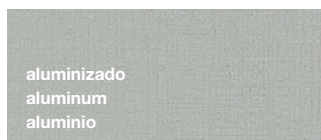

LAMINADO DECORATIVO HIGH-END

Aquarela: fabricado a través de impresión digital que permite la creación de efectos y diseños únicos.

Negro: fabricado a partir de una nueva generación de resinas con nanotecnología, es sumamente mate y satinado al tacto. Permite una fácil extracción de las manchas de grasa, además de contar con una mayor resistencia al rayado y a la abrasión que los laminados tradicionales.

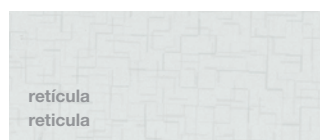

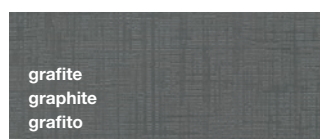

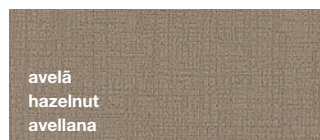

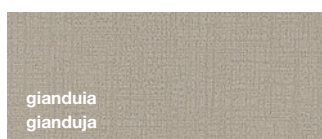

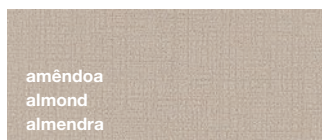

MELAMINA

Painel de MDP revestido com papel decorativo impregnado com resina melamínica, termofundido em prensas de alta temperatura.

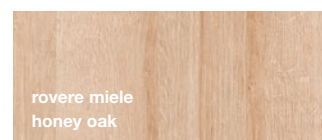

MELAMINE

MDP panel thermally fused with resin-saturated paper.

MELAMINA

Panel de MDP revestido con papel decorativo impregnado con resina melamínica, termofundido en prensas de alta temperatura.

PEROLIZADO

Pintura com efeito metálico tridimensional proporcionado por pigmentos perolizados, que refletem de forma diferente conforme o ângulo de visão e reflexão da luz.

PEROLIZADO HIGH GLOSS

Pintura perolizada que recebe acabamento de verniz brilhante, polido, de alto desempenho.

PEARLESCENT

Pearl-like pigments give the effect of the sheen and luster of pearls.

HIGH GLOSS PEARLESCENT

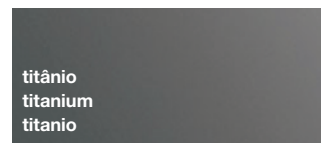

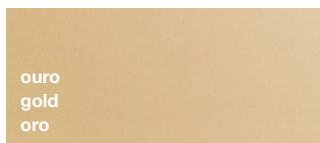

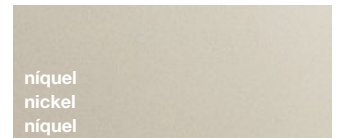

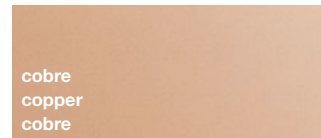

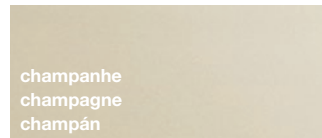

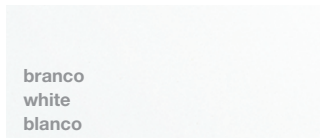

A high resistance, polished lacquer is added for additional effect.

NACARADO

Pintura con efecto metálico tridimensional proporcionado por pigmentos nacarados, que reflejan de forma diferente según el ángulo de visión y reflexión de la luz.

NACARADO HIGH GLOSS

Pintura nacarada que recibe terminación de barniz brillante, pulido, de alto desempeño.

MICROTEXTURA

Pintura microtexturizada com toque aveludado.

HIGH GLOSS

Pintura com acabamento final em verniz brilhante, polido, de alto desempenho.

MICROTEXTURE

Mate lacquer with a soft touch.

HIGH GLOSS

High resistance polished lacquer.

MICROTEXTURA

Pintura microtexturada con toque aterciopelado.

HIGH GLOSS

Pintura con terminación final en barniz brillante, pulido, de alto desempeño.

VIDRO TEMPERADO

Incolor: vidro puro, translúcido e sem pigmentação.

Quadretti: vidro texturizado, com grafismos quadriculados, que permite a passagem da luz sem revelar o interior do armário.

Refletivo: um tratamento químico especial em uma das faces torna-o um espelho com transparência.

Fosco: recebe aplicação de ácido em uma das faces, o que lhe confere efeito fosco.

Pintado: pintura microtexturizada na face interna.

TEMPERED GLASS

Clear: translucent glass.

Checkered Glass: Textured glass. It allows light to pass through without revealing the inside of the cabinet.

Reflective: a special chemical treatment on one of the sides makes it reflective and transparent.

Opaque: the glass is acid-treated for an opaque effect.

Painted: glass is painted with microtexture lacquer.

VIDRIO TEMPLADO

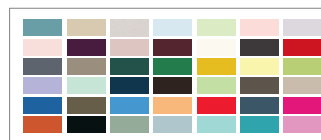

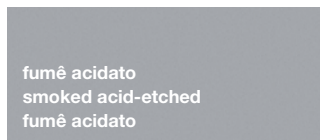

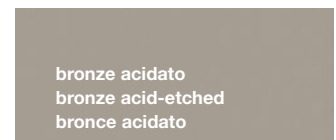

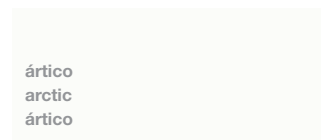

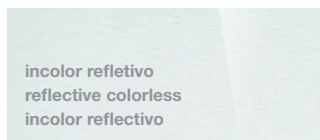

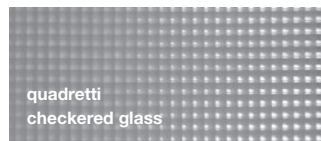

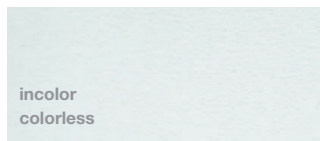

Incoloro: vidrio puro, translúcido y sin pigmentación.

Quadretti: vidrio texturizado con efectos cuadriculados, que permite la pasaje de la luz sin revelar el interior del armario.

Refletivo: un tratamiento químico especial en una de las etapas lo hace un espejo con transparencia.

Opaco: recibe aplicación de ácido en una de las etapas, lo que le otorga efecto opaco.

Pintado: pintura microtexturada en la etapa interna.

+ TODAS AS CORES APRESENTADAS EM MICROTATURA/HIGH GLOSS

+ ALL MICROTATURA/HIGH GLOSS COLORS

+ TODOS LOS COLORES MICROTATURA/HIGH GLOSS

ESPELHO

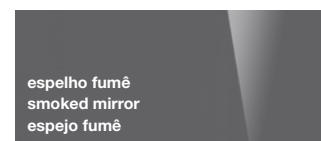

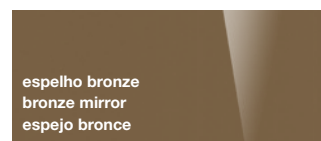

Recebe uma película de proteção na face interna, que evita acidentes.

MIRROR

A safety film protects the inner glass to help prevent accidents.

ESPEJO

Recibe una película de protección en la etapa interna, que evita accidentes.

ESPELHO TEMPERADO

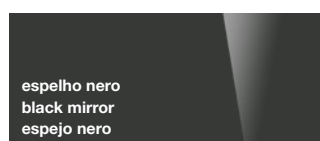

Vidro refletivo temperado com pintura na face interna.

TEMPERED MIRROR

Reflective tempered glass painted on the inner front side.

ESPEJO TEMPLADO

Vidrio refletivo templado con pintura en la parte interior.
